Integrated Pest Management Academy February 20-21, 2012

The MSU IPM Academy is dedicated to assisting new and current members of the agricultural community understand and adopt sustainable pest management practices.

MICHIGAN STATE UNIVERSITY | **Extension**

The Academy is thrilled to host **Dr. Barry Jacobsen** from the Department of Plant Sciences and Pathology at Montana State University. Dr. Jacobsen will discuss the philosophy of IPM that has revolutionized agricultural production. Participants will be introduced to the critical concepts that support IPM, including entomology, plant physiology, pest scouting and more. Participants will also have the opportunity to opt into two half-day sessions to learn about IPM strategies in specific production systems including:

- **Strawberries and Raspberries**
- **Grapes**
- **Blueberries**
- **Pome Fruit**
- **Stone Fruit**
- **Cucurbits, Cole Crops, Onions, Celery, and Carrots**
- **Peas, Beans, Sweet Corn, Asparagus, Tomatoes, and Peppers**
- **Hops**
- **Conifers**
- **Deciduous Trees and Shrubs**
- **Small Grains and Forages; Wheat, Alfalfa, and Mixed Hay**
- **Field Crops; Corn and Soybeans**

The Academy will run from 8:30-5:00 on February 20-21, 2012. MAEAP I, Pesticide Recertification and Certified Crop Advisor credits will be available.

The cost of the program is \$225 and registration is open from January 3-February 13, 2012.

Registrations postmarked or submitted after February 13 are subject to a \$75 late fee and may not be honored.

You may register online at www.ipm.msu.edu/ipm-academy.htm or by filling out and mailing the form on the back of this brochure.
